

The Indiana Telephone Privacy Act has enhanced the quality of our evenings at home. We do not wish to be called by unsolicited telemarketers. I am in a position to research and call for any service I need or any item I wish to purchase. My husband and I feel it is an invasion of privacy to have these companies calling our home. Sometimes they call again and again without noting that someone has called our home before. This is very annoying to both of us. PLEASE DO NOT PASS ANY LEGISLATION THAT WOULD VOID THE CURRENT LAW. THANK YOU.
